Profile

I'm a Full-Stack Java developer passionate about complex challenges and innovation. With solid experience in Spring, Angular and Docker, I excel in creating effective solutions that improve performance and exceed expectations. I have a proven track record of delivering projects on time and I am constantly looking for opportunities that allow me to expand my skills and contribute to the success of development teams. I am dedicated, results-oriented and always committed to achieving technical excellence.

Employment

Jan 2022 - Present

Java Fullstack developer (Spring, Angular & Docker) SCI, Maputo

- Developed a management platform using Java and Spring for the back-end and Angular for the front-end.
- Developed and integrated RESTful APIs for different company clients, such as banks and insurance companies.
- Automated deployment processes using Docker, reducing delivery time for new features.

Skills: Application Programming · Back-End Web Development · Front-End Web Development · MySQL · Java · Spring Framework · Angular · Docker · AWS S3 · UML · JUnit
